Alaxi Tribal Texture - Sunbrella Ad

The Parallels collection boasts an array of paired designs; two paths with separate, but complementary, motifs. Mother Nature serves as the inspiration for the line, which features interpretations of landscapes and earth elements - ranging from minerals to water - with metallic ink.

Need a convincing alternative to leather? Try Torino Polyurethanes. The new line has the "aged" look down pat and will last until it is as old as it looks. It also can withstand 800,000 double rubs. The 54 - inch - wide fabric comes in 15 colors.

Embracing life as an eternal weekend. Tommy Bahama Sunbrella Wovens and Outdoor Prints bring a wide range of patterns and colors to your upholstery and draperies. Far-flung destinations inspired the paisley and basket weave patterns that are stain, soil and fade resistant. The line consists of 86 colors spread over 23 patterns.
